

SeaAir Europe Training Suit

Easily exchangeable cuffs and neck seal

Low profile automatic exhaust valves on shoulders

SeaAir Europe Training Suit Helicopter Pilot & Passenger Training Suit

- Extremely durable and ergonomic pilot/passenger training suit. Suit is equipped with a long diagonal PU-zip for easy access.
- Shell fabric in highly tear and wear resistant PU-coated Nylon Oxford. Same fabric used in training suits in Norway since 2010 with excellent record.
- Suit is specially designed for use in training to withstand chlorinated water and repeated use throughout the training week.
- The innovative Quick Neck & Cuff Solution is a unique optional feature of the SeaAir Europe Training Suit. Cuffs and neck seal may be supplied in either latex or smooth-skin neoprene. The modular Quick Solution allows for easy replacement of both neck seal and cuffs and reduces repair and service costs of your suit.
- For safe expulsion of excess air in the suit, automatic profile dump valves are mounted on each shoulder. The dump valves are low profile to avoid snagging. Loose neoprene hood in thigh pocket.
- To be worn with compatible lifejacket (SeaLion Europe passenger/Pilot Lifejacket).
