

*Hood allows use of helmet
- semirigid cord allows
optimal adjustment*

Whistle

*Buddyline with floating
hook*

*Roomy pockets on legs for
storage*

SAR/Pilot suit for arctic conditions

- The preferred suit for operations in cold areas, made in soft, durable and well proven neoprene material
- Developed in cooperation with the Norwegian 330 Search and Rescue Squadron.
- Large wind proof hood for use over helmet
- Adjustable semi-rigid cord in hood opening
- Inflation valve (to inflate the entire suit)
- Detachable neoprene hood and gloves
- Socks for individual choice of footwear

PILOT SUIT

COLOURS: 290 Orange

SIZES: S - XXL

- 3 mm flexible and durable neoprene fabric
- Developed in cooperation with the Norwegian 330 Search and Rescue Squadron
- Large hood for use outside helmet
- Adjustable, semi-rigid cord in hood for opening
- Valve to blow air into the suit (the entire suit) to give better insulation and flotation
- Detachable neoprene hood and gloves
- Socks for individual choice of preformed footwear
- Waterproof lightweight PU-zip - easy to don
- Functional, roomy pockets on legs
- Separate waterproof zip for easier urination
- No formal certifications, still preferred by pilots operating in arctic/tough conditions

PILOT REDNINGSDRAKT

FARGER: 290 ORANGE

STR: S - XXL

- 3 mm fleksibelt og slitesterk neoprene metervare
- Utviklet i samarbeid med 330 skvadronen (Redningstjenesten)
- Spesialhette for bruk utenpå hjelm
- Justerbar halvstiv tråd i hette
- Ventil for oppblåsing av drakten - gir bedre isolasjon og flyteevne
- Løs neopren hette og hansker
- Sokker for valg av personlig fottøy
- Vanntett hovedlås i lett materiale - enkel å lukke
- Separat vanntett lås for forenklet toalett-besøk/vannlating
- Ingen formelle sertifiseringer, likevel foretrukket av piloter som opererer i arktiske/ tøffe forhold
