

# HP Measurement Chart

## Made to Measure

Please record all measurements according to figure to the right

Measurements should be taken in centimeters.

Record measurements in size table below.

All measurements should be taken wearing close fitting clothes only.

Use a "tailor's" (flexible) tape for measuring.

A detailed guide is available online

Ref	Measurement	Procedure	Measurement in cm
A	Shoulder	The breadth or width of the shoulders, measuring across the back from shoulder tip to shoulder tip.	
B	Arm Inseam	With your arm relaxed at your side and palm facing forward, measure the distance from the armpit to the wrist.	
C	Leg Inseam	Measure the vertical distance from the crotch to the floor. Use a book pressed firmly up between the legs and measure from the top of the book.	
D	Bicep	With your arm bent flexing the bicep muscle, measure the circumference of the arm at the largest portion of the bicep.	
E	Chest	Measure the horizontal circumference around the chest at maximum girth.	
F	Waist	Measure the horizontal circumference around the waist / abdominal at maximum girth.	
G	Hip	Measure the horizontal circumference around the hip or buttock (largest area between waist and crotch) at maximum girth.	
H	Thigh	Measure the horizontal circumference around the maximum girth at the thigh.	
I	Torso	With your shoulders relaxed and the tape running over the center of one shoulder and between the legs, measure the vertical trunk circumference. If the measuring tape is too short for the full circumference of the torso the measurement must be performed in two steps. Add the numbers together for the total measurement.	
J	Neck	Around the mid section of the neck.	
K	Wrist	Around the wrist, over the wrist bone.	

Body Height	
Shoe Size
