

1000S Rear Aircrew J-Don

SKU: 1000S-Aircrew-Re-Jdon

1000S J-Don Rear Aircrew is a robust, lightweight work/survival suit manufactured using advanced materials with a design that improves comfort and safety for rear aircrew during over water helicopter operations.

Advanced design and fabric enhance flying performance and comfort for helicopter rear aircrew. The outer shell of the suit is waterproof, breathable and inherently flame retardant, while the thermal lining uses phase change materials to combat thermal stress and increases wearer comfort. The ergonomic design and advanced technologies allow the pilot to focus, unhindered, on the task at hand. 4-hour certified.

Compatible with Halo Aircrew Lifejacket.

Key Features

- J-zip w/separate neck seal
- Anti-microbial lining that integrates NASA-developed technology to facilitate thermal regulation - providing increased comfort and survivability in water
- Produced in Gore-Tex Farnborough (Nomex with Antistatic)
