

NavyLife Battle & Work Vest

SKU: 82792-95290STD

Safety that moves with you. The NavyLife Battle Work Vest II is a high-performance personal flotation device designed for professionals operating in demanding marine and tactical environments.

The NavyLife Battle Work Vest II is engineered to provide buoyancy, comfort and freedom of movement for personnel who require dependable flotation support during work tasks at sea. Designed with the needs of maritime professionals in mind, this work vest combines reliable lifejacket performance with practical functionality that supports day-to-day operations.

Constructed from durable and rugged materials, the vest offers stable buoyancy while maintaining a comfortable fit that won't restrict movement. Its low-profile design supports freedom of motion, making it well-suited for boarding operations, deck tasks, patrols, search and rescue support, and other professional activities where flexibility and safety are both essential.

Thoughtful features such as secure adjustable straps and multiple attachment points ensure a tailored fit and easy integration with other gear. Reflective elements enhance visibility in low-light conditions, and utility loops support the attachment of tools and accessories. The NavyLife Battle Work Vest II is a reliable choice for professionals who demand flotation support that adapts to the rigours of their work.

Key Features

- High-performance personal flotation device for demanding marine and tactical environments
- Stable buoyancy support with a comfortable, low-profile design
- Durable materials for rugged use
- Adjustable straps for a secure, tailored fit
- Multiple attachment points and utility loops for gear integration
- Enhanced visibility elements for safety in low-light conditions
- Supports freedom of movement for work tasks at sea
- Designed for professional use where mobility and flotation are essential
