

ErgoFit 290N Rope Access Solas

SKU: 83291

Comfort-oriented protection for demanding offshore work. The ErgoFit SOLAS Lifejacket is a professional inflatable lifejacket engineered for offshore operations, including vessel crew transfer and working at height over water.

The ErgoFit SOLAS Lifejacket is a SOLAS-approved inflatable flotation device designed to deliver high-performance in-water protection with all-day wear comfort. It incorporates a high-volume sculpted bladder to provide stable buoyancy and reliable rotation in the water, helping keep the airway clear in emergency situations. The ergonomic design supports comfort even during extended wear, making it suitable for offshore wind, vessel transfer and other professional marine environments.

An ergonomic Fusion 3D shape and padded airmesh internal structure ensure comfort for long shifts, while dual side adjusters allow the fit to be fine-tuned to what the wearer is wearing underneath. The lifejacket also features a robust EXOLOK cylinder retention system for added safety and compatibility with industry-standard fall arrest harnesses.

Key Features

- Professional SOLAS-approved inflatable lifejacket designed for offshore and over-water operations
- High-volume sculpted bladder for stable flotation and strong in-water performance
- Ergonomic Fusion 3D design with padded airmesh for all-day comfort
- EXOLOK cylinder retention system to secure the inflation cylinder
- Dual side adjusters for a tailored, secure fit
- Integrated sprayhood system for enhanced airway protection
- Engineered to be compatible with leading fall arrest harness types
- Designed to support comfort, safety and performance in demanding marine environments

Lifejackets Industry and Applications Certifications Product Info

Release mechanism	Water activated
ISO buoyancy class	275 N
Type of Buoyancy aid	Inflatable
Crotch strap	Yes Double
Buckle type	Quick Lock
Actual buoyancy	290 N
Cylinder lock	Yes
Sensor type	UML Pro Sensor Elite

Safety Harness	Yes
Spray hood	Yes
Attachment point for safety line	Softloop D-ring
Industry	Offshore Wind, CTV, SOV, WTIV
Area of use	Wind turbine maintenance, Working at height, Weather-exposed work, Working in cold and wet environments, Maintenance work on board
SOLAS	MED/1.4 Lifejacket
Red Ensign	UK 1.4
Size	One Size Adjustable
Colour	Navy
