

SeaEco+ with rescue harness

SKU: SeaEcoPlus-wHarness

Immersion suit, Solas and CE- approved with integrated rescue harness. Specially developed for offshore the wind-energy industry. Approved for use without a lifejacket. As standard the suit is delivered vacuum packed.

SOLAS and CE approved immersion suit with integrated rescue harness for quick and safe evacuation. The safe choice for evacuation from offshore wind turbines. Built-in buoyancy in the collar ensures a proper floating position and adequate freeboard. Vacuum packing saves space and extends the mandatory service interval, which in turn makes this suit excellent value.

Key features

- Buoyancy pillow in back ensures correct floating position and free-board
- Flame retardant 5 mm neoprene - with knitted polyester backing for durability
- With buddy line and floating hook
- Integrated rescue harness approved to EN 1498
- Lifting strap with stainless steel D-ring and carbine hook
- Waterproof main zip in PU/Plastic - easy to close
- Approved reflective patches
- Integrated hood with extra closure
- May be vacuum packed for extended service interval
- Watertight cuffs
- Detachable gloves attached by elastic bands - stored under flap on sleeves
- Velcro tighteners in legs
- Rubber soles for optimal grip on slippery surface
- SOLAS approved and in accordance with LSA code MED 1.6b as an insulated immersion suit designed to be worn without a life-jacket
- With optional long-life emergency light the suit can be vacuum packed for 15 years service interval (Remark: With special DDP)
- When stored without vacuum it is required with regular control and lubrication of the main zipper. Zip should be in closed position when stored.
