

SeaMob AES

SKU: SeaMOB-AES

Work gear that won't let you down. The SeaMob AES Work Suit is a highperformance offshore work suit engineered to keep personnel dry, comfortable, and protected in demanding marine environments.

The SeaMob AES Work Suit is designed for professionals who work on deck, crew offshore vessels, or perform tasks in exposed marine conditions where weather, spray and wind are constant challenges. It combines robust weather protection with practical functionality to support long workdays without sacrificing mobility or comfort. Reinforced areas in highwear zones improve abrasion resistance and extend the working life of the suit.

The ergonomic construction supports natural movement and reduces fatigue during physically demanding activities. Functional features such as adjustable closures, pocketing and enhanced visibility elements support both safety and convenience on the job. The SeaMob AES Work Suit is a dependable choice for deckhands, workboat crews and offshore personnel who require dependable protective gear. Certified to be worn without a lifejacket, the suit has an integrated, manual inflatable lung for proper floating position and increased freeboard.

Key Features

- Highperformance offshore work suit designed for marine work environments
- Waterproof construction for allweather protection
- Durable materials with reinforced highwear areas
- Ergonomic design to support mobility and reduce fatigue
- Adjustable closures for secure and comfortable fit
- Enhanced visibility elements for improved safety
- Secure closures to resist wind, water and spray ingress
- To be worn without lifejacket.
- Integrated, manually inflatable lung.
