

SeaRescue III Telescopic

SKU: SeaRescue-III-YLW

Work gear that adapts to every challenge. The SeaRescue III Telescopic Work Suit is a rugged work suit engineered for demanding marine, military and rescue operations, offering protection, comfort and adaptability in harsh weather conditions.

The SeaRescue III Telescopic Work Suit is designed for professionals who operate in challenging environments, including rescue teams, deck crews and military & defence operatives exposed to rain, wind and sea spray. It blends durable weather protection with thoughtful ergonomic design to support long hours in tough conditions.

This suit features waterproof, breathable materials that protect against wind, rain and heavy spray while allowing internal moisture to escape, helping to keep the wearer comfortable and dry. The standout telescopic design allows the suit to adjust to different body sizes and layers, supporting a flexible and secure fit without compromising performance. Reinforced panels at highwear areas extend durability for frequent use, while articulated patterning and ergonomic shaping support freedom of movement. Practical details like adjustable cuffs, reinforced knees and multiple storage pockets add convenience and usefulness to everyday offshore tasks.

The SeaRescue III Telescopic Work Suit is built for use where performance matters most, providing dependable protection without sacrificing comfort.

Key Features

- Rugged offshore work suit designed for marine and rescue operations
- Waterproof and breathable materials for allweather protection
- Telescopic design for adjustable fit across body sizes and layers
