

Vacuum Packing

SKU: 69220

Protect your investment and maximize the service life of your immersion suits with professional vacuum packing from Hansen Protection. Available for both new suits and suits serviced at our authorized service station, vacuum packing provides superior protection during storage and transport while significantly reducing the space required onboard.

Vacuum Packing of Immersion Suits

By removing air and sealing the suit in a durable protective barrier, the suit is safeguarded against moisture, dust, UV exposure, dirt and unnecessary handling. Vacuum-packed suits remain compact, easy to store and ready for deployment when needed.
