

Crewfit 150N XD Automatic

SKU: Crewfit 150N XD

Comfort and protection for work around water. The Crewfit 150N XD Lifejacket is a robust inflatable lifejacket designed for demanding commercial marine environments, delivering reliable buoyancy and ergonomic comfort for professionals working on or near water.

The Crewfit 150N XD Automatic Lifejacket is engineered to provide dependable flotation support and ease of use for maritime and offshore personnel who operate in environments where water safety is critical. Its modular design allows choice of covers, inflation systems and harness options to match operational requirements.

Built with Fusion 3D ergonomic technology, the lifejacket is shaped to follow natural body contours, giving freedom of movement and comfort even during extended wear. Twin waist adjusters help ensure a secure, tailored fit, and removable dual crotch straps prevent the jacket from riding up in the water.

The rugged construction features a heavy-duty outer cover that withstands harsh working environments. The 190N inflation bladder delivers buoyancy significantly above its 150 N rating, helping ensure stable flotation and effective turning performance when immersion occurs. Practical elements such as built-in chin support and lifting beackets contribute to safety and rescue readiness.

Key Features

- Automatically Inflatable lifejacket designed for commercial marine and offshore work
- Modular system with cover, inflation and harness options to suit operational needs
- Fusion 3D ergonomic design for comfort and natural movement
- Twin waist adjusters for secure, customised fit
- Removable dual crotch straps to eliminate ride-up during water immersion
- Heavy-duty outer cover built for prolonged use in demanding conditions
- Inflate bladder delivers buoyancy above minimum rating for strong flotation performance
- Built-in chin support to help protect the airway in water
- Dual lifting beackets to aid recovery and rescue readiness
- Indicator window for quick status check of firing mechanism
- Designed for professional use where mobility and flotation are essential

Industry and ApplicationsCertificationsProduct InfoLifejackets

Industry	Fisheries, Leisure, Emergency Services, Search and Rescue
Area of use	Working at height, Deck work, Fishing and catch handling, Fish farming – daily operations, Working in cold and wet environments
ISO	ISO 12402-3 (150N)
Manufacturers Part Number (MPN)	9241XXX
Material	Polyester

Release mechanism	Water activated
--------------------------	-----------------

ISO buoyancy class	150 N
---------------------------	-------

Type of Buoyancy aid	Inflatable
-----------------------------	------------

Crotch strap	Yes Double
---------------------	------------

Buckle type	Quick Lock
--------------------	------------

Actual buoyancy	190 N
------------------------	-------

Cylinder lock	Yes
----------------------	-----

Sensor type	UML Pro Sensor Elite
--------------------	----------------------

Safety Harness	No
-----------------------	----

Spray hood	No
-------------------	----
