

Evolution 250N Auto

SKU: 83406

Reliable flotation you can count on. The Evolution 250N Auto Lifejacket is a high-performance personal flotation device designed for working in an environment where frequent water immersion is probable. This innovative hybrid lifejacket is a modern design that gives you additional buoyancy, comfort and manoeuvrability.

The Evolution 250N Auto Lifejacket is engineered to deliver reliable flotation support in emergency situations at sea, making it a practical choice for commercial mariners, offshore workers and emergency responders alike. Built with a focus on dependable automatic inflation performance and user comfort, this lifejacket promotes confidence and readiness on the water.

Featuring an automatic inflation system, the jacket provides immediate buoyancy when submerged, helping to establish a stable flotation posture without requiring manual activation. Its ergonomic design and adjustable fit help ensure wearer comfort across a wide range of body sizes and clothing configurations.

Durable construction and practical functional elements support long-term use in challenging marine environments. Designed to balance buoyancy, comfort and ease of use, the Evolution 250N Auto Lifejacket is suitable for professional and workboat applications where reliable personal flotation support is essential.

Key Features

- Personal flotation device with reliable automatic inflation
- Buoyancy rated at 250 Newtons for stable flotation support
- Automatic inflation system for hands-free activation in water
- Comfortable ergonomic design for extended wear
- Adjustable fit system to suit a wide range of users
- Durable construction for demanding marine environments
- Designed for everyday maritime and offshore use
- Practical design that supports ease of donning and comfort
- Stable flotation posture to aid water survival readiness

Lifejackets Industry and Applications Certifications Product Info

Release mechanism	Water activated
ISO buoyancy class	150 N
Type of Buoyancy aid	Hybrid
Crotch strap	Yes Double

Buckle type	Quick Lock
Actual buoyancy	250 N
Cylinder lock	EXOLOK
Sensor type	UML Pro Sensor
Industry	Offshore Oil and Gas, Fisheries, Shipping, Defence and SAR
Area of use	Rescue operations, Rapid rescue at sea, Fish farming - daily operations
ISO	ISO 12402-3 (150N), ISO 12402-6 (Special)
Size	STD
Colour	Orange
Service Interval	1 Year
