

Beaver Silicone Grease 60g

SKU: 88047

Beaver Aquagel is a silicone-based lubricant for O-rings, rubber seals, and other diving equipment components. Regular lubrication helps prevent rubber from drying out, extends the service life of seals, and ensures reliable performance. Apply only a thin film, just enough to give the O-ring a slight gloss. Not suitable for oxygen service above 40% O. For oxygen-clean applications, use an oxygen-compatible lubricant such as Christo-Lube.
