

33g CO Cylinder – compact

SKU: 13077

33g CO cylinder to replace used cylinders in 150 – 165N inflatable lifejackets. This cylinder is compact and is suitable for, among others, Crewsaver Crewfit 165N Sport.

If you are replacing the CO cylinder on your inflatable vest, please read the user manual carefully so that you replace with the correct cylinder.

This 33 gram cylinder is suitable for bladders in inflatable lifejackets with a buoyancy of somewhere between 150 and 165 Newtons. This cylinder is compact and is specially adapted to Crewsavers inflatable lifejackets that require a 33 gram cylinder, such as the Crewfit 165N Sport. This cylinder is also compatible with Crewsavers cylinder security system Exolok.

Please note that replacing the cylinder may also require a new capsule, safety clip and cylinder security system.
