

Crewfit 275N XD Fish Farm

SKU: Crewfit-275-Fishfarm

Tailored for the job at hand. The Crewfit 275N XD Fish Farm Lifejacket is a high-performance inflatable lifejacket designed specifically for professionals working on or around fish farms, delivering reliable buoyancy and job-focused features in demanding marine environments.

The Crewfit 275N XD Fish Farm Lifejacket is a robust, ISO-approved flotation device developed in collaboration with fish farm operators to meet the specific challenges of remote aquaculture work. It draws on the advanced comfort, performance and ergonomic features of the standard Crewfit 275N XD range, with custom enhancements for real-world fish farm use.

Built with Fusion 3D ergonomic design, the lifejacket supports freedom of movement and comfort through long work shifts in tough conditions, including wet decks, splash zones and frequent motion. Twin waist adjusters ensure an intuitive and secure fit, while dual crotch straps keep the jacket positioned correctly in the water. The tough wipe-clean outer cover increases longevity when used continuously in challenging environments.

With a buoyancy rating nominally at 275 N and an actual performance above that level, the flotation chamber supports stable turning and effective in-water posture, even when worn over heavy work clothing. Job-specific attachment points are included for accessories such as easy-access radios and quick-release knives, helping ensure essential tools are close at hand when needed.

Key Features

- Inflatable lifejacket designed for fish farm and commercial marine use
- Developed in collaboration with fish farm operatives to meet real-world requirements
- Fusion 3D ergonomic design for comfort and freedom of movement
- Twin waist adjusters for a secure, tailored fit
- Dual crotch straps to prevent ride-up and maintain correct fit
- Heavy-duty wipe-clean outer cover for durability in tough environments
- Actual buoyancy above the minimum rating to support stable flotation and turning performance
- Built-in chin support to help protect the airway in water
- Location beacon attachment points to support visibility and rescue readiness
- Dual lifting beackets to aid recovery and handling in the water
- Fixture points for easy-access radio and quick-release knife attachments
- Designed to balance comfort, functionality and safety for demanding work conditions

LifejacketsIndustry and ApplicationsCertificationsProduct Info

Release mechanism	Water activated
ISO buoyancy class	275 N
Type of Buoyancy aid	Inflatable
Crotch strap	true
Buckle type	Quick Lock

Actual buoyancy	290 N
Cylinder lock	EXOLOK
Sensor type	UML Pro Sensor Elite
Safety Harness	Yes
'Wipe Clean' Cover	Yes
Attachment point for safety line	Stainless Steel D-ring
Industry	Fisheries
Area of use	Oppdrettsanlegg - daglig drift
ISO	ISO 12402-2 (275N), ISO 12401 (SH/Safety Line)
Service Interval	1 Year
